

Enjoy your holidays joining your daily care of dialysis under the sun of Rhodes!

The Helionephro Dialysis Centre is situated in Rhodes, known as “the Island of the Sun” most of the tourists’ reviews regard it as a pleasant getaway, perfect for the whole family! A place where tourists almost outnumber the locals in high summer, and flock here for the golden sandy beaches and the historical and medieval sites. 5 km away from the city of Rhodes, in a stress-free atmosphere the **HELIONEPHRO** Centre welcomes you every day of the Year!!

A few words about our Clinic...

The **HELIONEPHRO** CENTRE has:

- A surface area of 900 m² dedicated to your care
- A hemodialysis facility with a capacity of 28 stations
- The ability to admit 28 patients per shift who will be welcomed by our experienced and polyglot staff (Greek, English, French, German, Italian, Spanish, Russian)
- The Unit is functioning with the latest models of NIKKISSO dialysis machines that can provide all types of modern dialysis (classic hemodialysis, hemofiltration, On-line hemodiafiltration etc).
- The water treatment plant is containing double reverse osmosis systems, UV antibacterial lamps and the water is tested constantly according to the international standards.
- Patients with hepatitis B or C, as well as the HIV-positive patients are treated in a separate place at each level.
- There is a closet, a telephone set, Television and internet access for each dialysis station
